## Independent Auditor's Report

To the Board of Education  
Chippewa Valley Schools

### **Report on the Financial Statements**

We have audited the accompanying financial statements of the governmental activities, the major funds, and the aggregate remaining fund information of Chippewa Valley Schools, (the "School District") as of and for the year ended June 30, 2017 and the related notes to the financial statements, which collectively comprise Chippewa Valley Schools' basic financial statements as listed in the table of contents.

### ***Management's Responsibility for the Financial Statements***

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

### ***Auditor's Responsibility***

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

To the Board of Education  
Chippewa Valley Schools

### ***Opinions***

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the major funds, and the aggregate remaining fund information of Chippewa Valley Schools as of June 30, 2017 and the respective changes in its financial position for the year then ended, in accordance with accounting principles generally accepted in the United States of America.

### ***Required Supplemental Information***

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, the budgetary comparison schedule, the schedules of Chippewa Valley Schools' proportionate share of the net pension liability, and the schedule of Chippewa Valley Schools' contributions, as listed in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, which considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplemental information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

### ***Other Information***

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Chippewa Valley Schools' basic financial statements. The other supplemental information as identified in the table of contents is presented for the purpose of additional analysis and is not a required part of the basic financial statements.

The other supplemental information as identified in the table of contents is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the other supplemental information as identified in the table of contents is fairly stated in all material respects in relation to the basic financial statements as a whole.

To the Board of Education  
Chippewa Valley Schools

**Other Reporting Required by Government Auditing Standards**

In accordance with *Government Auditing Standards*, we have also issued our report dated September 25, 2017 on our consideration of Chippewa Valley Schools' internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Chippewa Valley Schools' internal control over financial reporting and compliance.

*Plante & Morse, PLLC*

## Management's Discussion and Analysis

This section of Chippewa Valley Schools' (the "School District") annual financial report presents our discussion and analysis of the School District's financial performance during the year ended June 30, 2017. Please read it in conjunction with the School District's financial statements, which immediately follow this section.

### Using this Annual Report

This annual report consists of a series of financial statements and notes to those statements. These statements are organized so the reader can understand Chippewa Valley Schools financially as a whole. The government-wide financial statements provide information about the activities of the whole School District, presenting both an aggregate view of the School District's finances and a longer-term view of those finances. The fund financial statements provide the next level of detail. For governmental activities, these statements tell how services were financed in the short-term as well as what remains for future spending. The fund financial statements look at the School District's operations in more detail than the government-wide financial statements by providing information about the School District's most significant funds, the General Fund and the 2015 Refunding Series B Fund, with all other funds presented in one column as nonmajor funds. The remaining statement, the statement of fiduciary net position, presents financial information about activities for which the School District acts solely as an agent for the benefit of students and parents.

## Management's Discussion and Analysis (Continued)

### ***Reporting the School District as a Whole - Government-wide Financial Statements***

One of the most important questions asked about the School District is, "As a whole, what is the School District's financial condition as a result of the year's activities?" The statement of net position and the statement of activities, which appear first in the School District's financial statements, report information on the School District as a whole and its activities in a way that helps you answer this question. We prepare these statements to include all assets and liabilities, using the accrual basis of accounting, which is similar to the accounting used by most private-sector companies. All of the current year's revenue and expenses are taken into account regardless of when cash is received or paid. These two statements report the School District's net position - the difference between assets and liabilities, as reported in the statement of net position - as one way to measure the School District's financial health or financial position. Over time, increases or decreases in the School District's net position - as reported in the statement of activities - are indicators of whether its financial health is improving or deteriorating. The relationship between revenue and expenses is the School District's operating results. However, the School District's goal is to provide services to our students, not to generate profits as commercial entities do. One must consider many other nonfinancial factors, such as the quality of the education provided and the safety of the schools, to assess the overall health of the School District. The statement of net position and the statement of activities report the governmental activities for the School District, which encompass all of the School District's services, including instruction, support services, community services, athletics, and food services. Property taxes, unrestricted state aid (foundation allowance revenue), and State and federal grants finance most of these activities.

### ***Reporting the School District's Most Significant Funds - Fund Financial Statements***

The School District's fund financial statements provide detailed information about the most significant funds - not the School District as a whole. Some funds are required to be established by state law and by bond covenants. However, the School District establishes many other funds to help it control and manage money for particular purposes (the Cafeteria Fund, Building Activities Fund, and International Academy are examples) or to show that it is meeting legal responsibilities for using certain taxes, grants, and other money (such as bond-funded construction funds used for voter-approved capital projects). The governmental funds of the School District use the following accounting approach:

Governmental funds - All of the School District's services are reported in governmental funds. Governmental fund reporting focuses on showing how money flows into and out of funds and the balances left at year end that are available for spending. They are reported using an accounting method called modified accrual accounting, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the operations of the School District and the services it provides. Governmental fund information helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance the School District's programs. We describe the relationship (or differences) between governmental activities (reported in the statement of net position and the statement of activities) and governmental funds in a reconciliation.

# Chippewa Valley Schools

## Management's Discussion and Analysis (Continued)

### *The School District as Trustee - Reporting the School District's Fiduciary Responsibilities*

The School District is the trustee, or fiduciary, for its student activity funds. All of the School District's fiduciary activities are reported in a separate statement of fiduciary net position. We exclude these activities from the School District's other financial statements because the School District cannot use these assets to finance its operations. The School District is responsible for ensuring that the assets reported in these funds are used for their intended purposes.

### **The School District as a Whole**

Recall that the statement of net position provides the perspective of the School District as a whole. Table I provides a summary of the School District's net position as of June 30, 2017 and 2016:

TABLE I	Governmental Activities	
	June 30	
	2017	2016
	(in millions)	
<b>Assets</b>		
Current and other assets	\$ 53.2	\$ 56.0
Capital assets	363.8	373.7
Total assets	417.0	429.7
<b>Deferred Outflows</b>	49.5	45.5
Total assets and deferred outflows	466.5	475.2
<b>Liabilities</b>		
Current liabilities	70.8	66.5
Long-term liabilities	443.3	461.8
Net pension liability	244.6	242.6
Total liabilities	758.7	770.9
<b>Deferred Inflows</b>	10.6	7.5
Total liabilities and deferred inflows	769.3	778.4
<b>Net Position</b>		
Net investment in capital assets	(72.5)	(69.8)
Restricted	5.2	5.3
Unrestricted	(235.5)	(238.7)
Total net assets	<b>\$ (302.8)</b>	<b>\$ (303.2)</b>

# Chippewa Valley Schools

---

## Management's Discussion and Analysis (Continued)

The above analysis focuses on the net position (see Table 1). The change in net position (see Table 2) of the School District's governmental activities is discussed below. The School District's net position was (\$302.8) million at June 30, 2017. Net investments in capital assets totaling (\$72.5) million compare the original cost, less depreciation of the School District's capital assets, to long-term debt used to finance the acquisition of those assets. Most of the debt will be repaid from voter-approved property taxes collected as the debt service comes due. Restricted net position is reported separately to show legal constraints from debt covenants and enabling legislation that limit the School District's ability to use those net position for day-to-day operations. The remaining amount of net position (\$235.5) million was unrestricted.

The (\$235.5) million in unrestricted net position of governmental activities represents the accumulated results of all past years' operations. Included in the (\$235.5) million is \$244.6 million in net pension liability. The School District's portion of the MPSERS (Michigan Public School Employees' Retirement System) unfunded liability will have the greatest impact on the change in unrestricted net position from year to year.

The results of this year's operations for the School District as a whole are reported in the statement of activities (Table 2), which shows the changes in net position for fiscal year 2017 and, for comparative purposes, the changes in net position for fiscal year 2016.

# Chippewa Valley Schools

## Management's Discussion and Analysis (Continued)

TABLE 2

	Governmental Activities	
	2017	2016
	(in millions)	
<b>Revenue</b>		
Program revenue:		
Charges for services	\$ 10.8	\$ 11.2
Federal grants and entitlements	7.4	8.1
State categoricals	10.3	10.4
Other	12.0	5.4
General revenue:		
Property taxes	41.1	40.9
State foundation allowance	106.2	105.2
Investment earnings, loss on sale, and other	0.3	0.6
Total revenue	<u>188.1</u>	<u>181.8</u>
<b>Functions/Program Expenses</b>		
Instruction	99.3	93.0
Support services	50.1	49.0
Community services	1.0	1.0
Building activities	1.9	1.9
Food services	3.5	3.6
International Academy	3.1	3.4
Interest on long-term debt	15.5	15.4
Other	0.3	0.4
Depreciation (unallocated)	13.0	13.5
Total functions/program expenses	<u>187.7</u>	<u>181.2</u>
<b>Increase in Net Position</b>	0.4	0.6
<b>Net Position</b> - Beginning of year	<u>(303.2)</u>	<u>(303.8)</u>
<b>Net Position</b> - End of year	<u><u>\$ (302.8)</u></u>	<u><u>\$ (303.2)</u></u>

As reported in the statement of activities, the cost of all of our governmental activities this year was \$187.7 million. Certain activities were partially funded from those who benefited from the programs, \$10.8 million, or by other governments and organizations that subsidized certain programs with grants and contributions, \$29.7 million. We paid for the remaining "public benefit" portion of our governmental activities with \$41.1 million in taxes, \$106.2 million in state foundation allowance, and with our other revenue, i.e., interest and general entitlements.

The School District experienced an increase in net position of \$0.4 million. This figure represents the net difference between revenue and function/program expenses.

As discussed above, the net cost shows the financial burden that was placed on the State and the School District's taxpayers by each of these functions. Since property taxes for operations and unrestricted state aid constitute the vast majority of School District operating revenue sources, the Board of Education and administration must annually evaluate the needs of the School District and balance those needs with State-prescribed available unrestricted resources.

# Chippewa Valley Schools

## Management's Discussion and Analysis (Continued)

### The School District's Funds

As we noted earlier, the School District uses funds to help it control and manage money for particular purposes. Looking at funds helps the reader consider whether the School District is being accountable for the resources taxpayers and others provide to it and may provide more insight into the School District's overall financial health.

As the School District completed this year, the governmental funds reported a combined fund balance of \$35.1 million, which is a decrease of \$2.7 million from last year. The primary reasons for the decrease are as follows:

- General Fund - Fund balance increase of \$1.0 million
- Special Revenue Funds - Fund balance increase of \$0.2 million
- Debt Service Funds - Fund balance decrease of \$0.9 million
- Capital Projects Funds - Fund balance decrease of \$3.0 million resulting from the completion of capital projects

Millage rates are determined annually to ensure that the School District accumulates sufficient resources to pay annual bond issue-related debt service. The millage for Debt Service Funds fund balances is reserved since it can only be used to pay debt service obligations. It has been determined that the statutorily unlimited debt mills to be levied for the upcoming year is 8.64.

### General Fund Budgetary Highlights

Over the course of the year, the School District revises its budget as it attempts to deal with changes in revenue and expenditures. State law requires that the budget be amended to ensure that expenditures do not exceed appropriations. Amendments to the General Fund budget were approved on December 19, 2016 and May 15, 2017. A schedule showing the School District's original and final budget amounts compared with amounts actually paid and received is provided in required supplemental information to these financial statements.

Budgeted revenue increased by almost \$700,000 from the original budget to the final amendment. The increased revenue is a result of increased federal and state grant allocations and increased transfers from the Food Services and International Academy Funds. Budgeted expenditures decreased almost \$900,000 from the original budget to the final amendment. Increases in the federal and state grant expenditures were offset with the decreases in budget costs due to the negotiated change in the revenue over expenditure distribution in the newly signed labor agreements.

There were no significant variances between the final budget and actual amounts.

# Chippewa Valley Schools

## Management's Discussion and Analysis (Continued)

### Capital Assets and Debt Administration

#### *Capital Assets*

As of June 30, 2017, the School District had \$363.8 million invested in a broad range of capital assets, including land, buildings, vehicles, furniture, and equipment, offset by accumulated depreciation. This amount represents a net decrease (including additions, disposals, and depreciation) of approximately \$9.9 million.

	<u>2017</u>	<u>2016</u>
Land	\$ 13,092,570	\$ 13,092,570
Construction in progress	-	539,452
Buildings and building improvements	475,436,372	473,926,572
Buses and other vehicles	8,576,988	8,149,526
Furniture and equipment	<u>43,981,552</u>	<u>45,053,694</u>
Total capital assets	541,087,482	540,761,814
Less accumulated depreciation	<u>177,313,792</u>	<u>167,023,816</u>
Net capital assets	<u><b>\$ 363,773,690</b></u>	<u><b>\$ 373,737,998</b></u>

#### *Debt*

At the end of this year, the School District had \$424.1 million in bonds outstanding versus \$472.3 million in the previous year - a decrease of 10.2 percent, primarily due to refundings and principal payments. Those bonds consisted of the following:

	<u>2017</u>	<u>2016</u>
General obligation bonds	<u><b>\$ 424,095,000</b></u>	<u><b>\$ 472,275,000</b></u>

The School District's general obligation bond rating was AAA per S&P and/or Fitch at its issuance. The State limits the amount of general obligation debt that schools can issue to 15 percent of the assessed value of all taxable property within the School District's boundaries. If the School District issues "qualified debt," i.e., debt backed by the State of Michigan, such obligations are not subject to this debt limit. The School District's outstanding debt meets the qualified status requirements and is not subject to the general obligation \$630 million statutorily imposed limit.

Other obligations include accrued vacation pay and sick leave. We present more detailed information about our long-term liabilities in the notes to the financial statements.

# Chippewa Valley Schools

## Management's Discussion and Analysis (Continued)

### Economic Factors and Next Year's Budgets and Rates

Our elected officials and administration consider many factors when setting the School District's 2017-2018 fiscal year budget. One of the most important factors affecting the budget is student count. The State foundation revenue is determined by multiplying the blended student count by the foundation allowance per pupil. The blended count for the 2017-2018 fiscal year is based on 10 percent of the prior year and 90 percent of the current year spring 2017 and fall 2017 counts, respectively. The 2017-2018 fiscal year budget was adopted in June 2017, based on an estimate of an enrollment amount of 169 fewer students than the 2016-2017 counts. The majority of total General Fund revenue is from the foundation allowance. Under state law, the School District cannot assess additional property tax revenue for general operations. As a result, district funding is heavily dependent on the State's ability to fund local school operations. Once the final student count and related per pupil funding are validated, state law requires the School District to amend the budget if actual district resources are not sufficient to fund original appropriations.

Since the School District's revenue is heavily dependent on state funding and the health of the State's School Aid Fund, the actual revenue received depends on the State's ability to collect revenue and subsequently fund its appropriations to school districts. Revenue assumptions for the 2017-2018 fiscal year included an increased foundation allowance of \$120 per pupil. Budgeted expenditures for 2017-2018 included a \$1.45 million decrease to the textbook budget which was purchased in the prior year. The 2017-2018 budget also incorporates all required labor agreement changes for all groups for the second year of the two-year agreements. The impact of increased health insurance costs due to the increased hard cap limit under PA 152 for health insurance benefits and cash in lieu of health has been taken into consideration. An anticipated \$120,000 increase in electric costs for the 2017-2018 school year also impacted this budget. Using the factors indicated above and other best estimates available, the adopted budget for 2017-2018 projects that expenditures will exceed revenue by almost \$260,000.

Economic conditions and the commitment of the State of Michigan to fund K-12 education as a priority continues to be a concern for Chippewa Valley Schools and all districts in Michigan for the 2017-2018 school year and beyond. The 2017 calendar year will continue to be challenging as political agendas take precedence. While there continues to be improvement to Michigan economy, there has not been a significant change in the level of funding to K-12. The School District remains committed to its goals and is moving forward with strategic plans that will refine our focus in preparing students with a global educational experience.

### Contacting the School District's Management

This financial report is intended to provide our taxpayers, parents, and investors with a general overview of the School District's finances and to show the School District's accountability for the money it receives. If you have any questions about this report or need additional information, we welcome you to contact the business office.

## Governmental Funds Reconciliation of the Balance Sheet of Governmental Funds to the Statement of Net Position June 30, 2017

<b>Fund Balance Reported in Governmental Funds</b>	<b>\$ 35,132,342</b>
Amounts reported for governmental activities in the statement of net position are different because:	
Capital assets used in governmental activities are not financial resources and are not reported in the funds:	
Cost of capital assets	\$ 541,087,482
Accumulated depreciation	<u>(177,313,792)</u> 363,773,690
Deferred outflows related to pension payments made subsequent to the measurement date	19,658,728
Deferred outflow related to pensions	14,851,547
Long-term liabilities are not due and payable in the current period and are not reported in the governmental funds:	
Bonds payable - Plus bond premium	(491,561,303)
Employee compensated absences	(1,196,615)
Self-insurance liability	(266,439)
Voluntary retirement supplement	<u>(382,904)</u> (493,407,261)
Accrued interest payable is not included as a liability in governmental funds	(2,621,922)
Deferred outflows of resources (deferred interest) that do not benefit the current period are not reported in the governmental funds	14,969,161
Net pension obligations do not present a claim on current financial resources and are not reported as fund liabilities	(244,568,269)
Deferred inflows related to pension investment returns, changes in assumptions, and revenue in support of pension contributions subsequent to the measurement date are not reported in the governmental funds	<u>(10,565,944)</u>
<b>Net Position of Governmental Activities</b>	<b><u><u>\$ (302,777,928)</u></u></b>

## **Governmental Funds Reconciliation of the Statement of Revenue, Expenditures, and Changes in Fund Balances of Governmental Funds to the Statement of Activities Year Ended June 30, 2017**

<b>Net Change in Fund Balances - Total Governmental Funds</b>	<b>\$ (2,698,155)</b>
Amounts reported for governmental activities in the statement of activities are different because:	
Governmental funds report capital outlays as expenditures; however, in the statement of activities, these costs are allocated over their estimated useful lives as depreciation:	
Depreciation expense	\$ (12,989,371)
Capitalized capital outlay	<u>3,335,084</u>
	(9,654,287)
Governmental funds report proceeds from sale of assets as revenue; in the statement of activities, these are recorded net of carrying value of the disposed assets	(310,021)
Revenue in support of pension contributions made subsequent to measurement date	(894,634)
Deferred interest is reported an expenditure/income in the governmental funds, but is capitalized and amortized in the statement of activities	(108,921)
Bond proceeds provide financial resources to governmental funds, but issuing debt increases long-term liabilities in the statement of activities	(75,176,496)
Underwriter's discount/premium reported as expenditures/revenue in the funds and amortized in the statement of activities	(4,002,435)
Repayment of bond principal is an expenditure in the governmental funds, but not in the statement of activities (where it reduces long-term debt)	93,475,000
Interest expense is recorded in the statement of activities when incurred; it is not reported in governmental funds until paid	(115,937)
Change in pension expense related to deferred items	(77,195)
Compensated absences, as well as self-insured liability claims, are recorded when earned in the statement of activities. In the current year, more was earned than paid out	<u>(26,943)</u>
<b>Change in Net Position of Governmental Activities</b>	<b><u>\$ 409,976</u></b>

## Notes to Financial Statements June 30, 2017

### Note I - Nature of Business and Significant Accounting Policies

The accounting policies of Chippewa Valley Schools (the "School District") conform to accounting principles generally accepted in the United States of America (GAAP) as applicable to governmental units. The following is a summary of the significant accounting policies used by the School District:

#### **Reporting Entity**

The School District is governed by an elected seven-member Board of Education. The accompanying financial statements have been prepared in accordance with criteria established by the Governmental Accounting Standards Board for determining the various governmental organizations to be included in the reporting entity. These criteria include significant operational financial relationships that determine which of the governmental organizations are a part of the School District's reporting entity, and which organizations are legally separate component units of the School District. Based on the application of the criteria, the School District does not contain any component units.

#### **District-wide and Fund Financial Statements**

The district-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the nonfiduciary activities of the primary government. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities, which normally are supported by taxes and intergovernmental revenue, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support. All of the School District's government-wide activities are considered governmental activities.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenue. Direct expenses are those that are clearly identifiable with a specific function. Program revenue includes (1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function and (2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function. Taxes, intergovernmental payments, and other items not properly included among program revenue are reported instead as general revenue.

Separate financial statements are provided for governmental funds and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds are reported as separate columns in the fund financial statements.

### **Note I - Nature of Business and Significant Accounting Policies (Continued)**

#### **Measurement Focus, Basis of Accounting, and Financial Statement Presentation**

**District-wide Financial Statements** - The district-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenue is recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenue in the year for which they are levied. Grants, categorical aid, and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

As a general rule, the effect of interfund activity has been eliminated from the district-wide financial statements.

When an expense is incurred for the purpose for which both restricted and unrestricted net position or fund balance are available, the School District's policy is to first apply restricted resources. When an expense is incurred for the purpose which amounts in any of the unrestricted fund balance classifications could be used, it is the School District's policy to spend funds in this order: committed, assigned, and unassigned.

Amounts reported as program revenue include (1) charges to customers or applicants for goods, services, or privileges provided and (2) operating grants and contributions. Internally dedicated resources are reported as general revenue rather than as program revenue. Likewise, general revenue includes all taxes and unrestricted state aid.

**Fund Financial Statements** - The governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenue is recognized as soon as it is both measurable and available. Revenue is considered to be available if it is collected within the current period or soon enough thereafter to pay liabilities of the current period. Revenue not meeting this definition is classified as a deferred inflow of resources. For this purpose, the School District considers revenue to be available if it is collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Property taxes, unrestricted state aid, intergovernmental grants, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenue of the current fiscal period. All other revenue items are considered to be available only when cash is received by the School District.

### **Note I - Nature of Business and Significant Accounting Policies (Continued)**

Fiduciary fund statements are also reported using the economic resources measurement focus and the accrual basis of accounting.

The School District reports the following major governmental funds:

**General Fund** - The General Fund is the School District's primary operating fund. It accounts for all financial resources of the School District, except those required to be accounted for in another fund.

**2015 Series A Refunding Fund** - The 2015 Series A Refunding Fund is a debt service fund that is used to record tax, interest, and other revenue for payment of interest, principal, and other expenditures on the related bond issue.

Additionally, the School District reports the following fund types:

**Special Revenue Funds** - Special Revenue Funds are used to account for the proceeds of specific revenue sources that are restricted to expenditure for specified purposes. The School District's Special Revenue Funds include the Cafeteria Fund, International Academy, and Building Activities Fund. Revenue sources of the Cafeteria Fund include sales to customers and dedicated grants from state and federal sources. Revenue of the Building Activities Fund and International Academy consists primarily of tuition and fees charged to users. Any operating deficit generated by these activities is the responsibility of the General Fund.

**Debt Service Funds** - The School District's Debt Service Funds are used to record tax, interest, and other revenue for payment of interest, principal, and other expenditures on the related bond issues.

**Capital Projects Fund** - The School District's Capital Projects Funds are used to record bond proceeds or other revenue and the disbursement of invoices specifically designated for acquiring new school sites, buildings, equipment, and for remodeling. The funds operate until the purpose for which they were created is accomplished.

#### **Assets, Liabilities, and Net Position or Equity**

**Cash and Investments** - Cash and investments include cash on hand, demand deposits, and short-term investments with a maturity of three months or less when acquired. Investments are stated at fair value. Investment income is recorded in the fund for which the investment was established.

**Receivables and Payables** - In general, outstanding balances between funds are reported as "due to/from other funds." Activities between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as "advances to/from other funds."

# Chippewa Valley Schools

## Notes to Financial Statements June 30, 2017

### Note I - Nature of Business and Significant Accounting Policies (Continued)

All trade and property tax receivables are shown net of an allowance for uncollectible amounts. The School District considers all receivables to be fully collectible; accordingly, no allowance for uncollectible amounts is recorded. Property taxes are assessed as of December 31 and the related property taxes become a lien on July 1 of the following year. These taxes are due on September 14 with the final collection date of February 28. Taxes are considered delinquent on March 1 of the following year. At this time, penalties and interest are assessed and the total obligation is added to the county tax rolls.

**Inventories and Prepaid Costs** - Inventories are valued at cost, on a first-in, first-out basis. Inventories of governmental funds are recorded as expenditures when consumed rather than when purchased, including United States Department of Agriculture Commodities inventory received by the Cafeteria Fund. Certain payments to vendors reflect costs applicable to future fiscal years and are recorded as prepaid costs in both the district-wide and fund financial statements.

**Restricted Assets** - The unspent bond proceeds and related interest of the Capital Projects Funds require amounts to be set aside for the purpose identified in the bond proposal and other expenses appropriate to the fund. In addition, the unspent property taxes levied in the Debt Service Funds are required to be set aside for future bond principal and interest payments. These amounts have been classified as restricted assets.

**Capital Assets** - Capital assets, which include land, buildings, equipment, and vehicles, are reported in the applicable governmental column in the district-wide financial statements. Capital assets are defined by the School District as assets with an initial individual cost of more than \$1,000 and an estimated useful life in excess of one year, except for computer purchases, which are deemed capital assets at a minimum purchase price of \$500. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at acquisition cost. Costs of normal repair and maintenance that do not add to the value or materially extend asset life are not capitalized. The School District does not have infrastructure-type assets.

Buildings, equipment, and vehicles are depreciated using the straight-line method over the following useful lives:

Buildings and building improvements	20 to 50 years
Buses and other vehicles	7 years
Furniture and other equipment	5 to 20 years

### **Note I - Nature of Business and Significant Accounting Policies (Continued)**

**Compensated Absences** - The liability for compensated absences reported in the district-wide statements consists of earned but unused accumulated vacation and sick leave benefits and voluntary retirement incentives. A liability for these amounts is reported in governmental funds as it comes due for payment. The liability has been calculated using the vesting method, in which leave amounts for both employees who are currently eligible to receive termination payments at normal retirement age and other employees who are expected to become eligible in the future to receive such payments upon normal retirement are included.

**Long-term Obligations** - In the district-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the statement of net position. Bond premiums and discounts are deferred and amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are reported as debt service expenditures.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period.

The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts are reported as other financing uses. Issuance costs are reported as debt service expenditures.

**Deferred Outflows/Inflows of Resources** - In addition to assets, the statement of net position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. The School District has two types of items that qualify for reporting in this category. The first item is the deferred charge on refunding reported in the district-wide statement of net position. A deferred charge on refunding results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt. The other deferred outflow is related to the pension plan.

In addition to liabilities, the statement of net position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element represents an acquisition of net position that applies to a future period and so will not be recognized as an inflow of resources (revenue) until that time. The School District has two items that qualify for reporting in this category. They are the deferred inflows related to the pension plan and revenue in support of pension payments made subsequent to the measurement date.

### **Note I - Nature of Business and Significant Accounting Policies (Continued)**

**Fund Balance** - In the fund financial statements, governmental funds report the following components of fund balance:

- **Nonspendable:** Amounts that are not in spendable form or are legally or contractually required to be maintained intact
- **Restricted:** Amounts that are legally restricted by outside parties, constitutional provisions, or enabling legislation for use for a specific purpose
- **Committed:** Amounts that have been formally set aside by the Board of Education for use for specific purposes. Commitments are made and can be rescinded only via resolution of the Board of Education.
- **Assigned:** Intent to spend resources on specific purposes expressed by the Board of Education or Superintendent of Business Services and Operations, who is authorized by policy approved by the Board of Education to make assignments.
- **Unassigned:** Amounts that do not fall into any other category above. This is the residual classification for amounts in the General Fund and represents fund balance that has not been assigned to other funds and has not been restricted, committed, or assigned to specific purposes in the General Fund. In other governmental funds, only negative unassigned amounts are reported, if any, and represent expenditures incurred for specific purposes exceeding the amounts previously restricted, committed, or assigned to those purposes.

**Use of Estimates** - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the period. Actual results could differ from those estimates.

**Pensions** - For the purpose of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Michigan Public School Employees' Retirement System (MPERS) and additions to/deductions from MPERS fiduciary net position have been determined on the same basis as they are reported by MPERS. MPERS uses the economic resources measurement focus and the full accrual basis of accounting. Contribution revenue is recorded as contributions are due, pursuant to legal requirements. Benefit payments (including refunds of employee contributions) are recognized as expense when due and payable in accordance with the benefit terms. Related plan investments are reported at fair value.

### **Note 2 - Stewardship, Compliance, and Accountability**

**Budgetary Information** - Annual budgets are adopted on a basis consistent with accounting principles generally accepted in the United States of America and state law for the General Fund and all Special Revenue Funds. All annual appropriations lapse at fiscal year end.

The budget document presents information by fund and function. The legal level of budgetary control adopted by the governing body (i.e., the level at which expenditures may not legally exceed appropriations) is the function level. Various administrators are authorized to transfer budgeted amounts within functions with any fund. State law requires the School District to have its budget in place by July 1. Expenditures in excess of amounts budgeted are a violation of Michigan law. The School District did not have any expenditure overruns. State law permits districts to amend their budgets during the year. The School District amended its budget twice during the fiscal year. These budget amendments were adopted by the school board on December 19, 2016 and May 15, 2017.

Amounts encumbered for purchase orders, contracts, etc. are not tracked during the year. Budget appropriations are considered to be spent once the goods are delivered or the services are rendered.

The School District budgets and reports capital outlay expenditures within the related function in the budgetary comparison schedule - General Fund. In accordance with generally accepted accounting principles, the School District reports capital outlay separately in the statement of revenue, expenditures, and changes in fund balance.

**Excess of Expenditures Over Appropriations in Budgeted Funds** - The School District did not have significant expenditure budget variances.

**Capital Projects Fund Compliance** - The 2005 Capital Projects Fund and 2010A Capital Projects Fund include capital project activities funded with bonds issued after May 1, 1994. For these capital projects, the School District has complied with the applicable provisions of §1351a of the State of Michigan's School Code.

### **Note 3 - Deposits and Investments**

State statutes and the School District's investment policy authorize the School District to make deposits in the accounts of federally insured banks, credit unions, and savings and loan associations that have offices in Michigan. The School District is allowed to invest in U.S. Treasury or agency obligations; U.S. government repurchase agreements; bankers' acceptances; commercial paper rated prime at the time of purchase that matures not more than 270 days after the date of purchase; mutual funds; and investment pools that are composed of authorized investment vehicles. The School District's deposits are in accordance with statutory authority.

The School District has designated 16 financial institutions for the deposit of its funds.

### Note 3 - Deposits and Investments (Continued)

The School District's cash and investments are subject to several types of risk, which are examined in more detail below:

**Custodial Credit Risk of Bank Deposits** - Custodial credit risk is the risk that, in the event of a bank failure, the School District's deposits may not be returned to it. The School District's investment policy requires that financial institutions be evaluated and only those with an acceptable risk level be used for the School District's deposits. At year end, the School District's had a balance of \$29,339,854 had \$28,589,854 of bank deposits (certificates of deposit, checking, and savings accounts) that were uninsured and uncollateralized. The School District evaluates each financial institution with which it deposits funds and assesses the level of risk of each institution; only those institutions with an acceptable estimated risk level are used as depositories.

**Custodial Credit Risk of Investments** - Custodial credit risk is the risk that, in the event of the failure of the counterparty, the School District will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The School District's policy for custodial credit risk states custodial credit risk will be minimized by limiting investments to the types of securities allowed by state law. At June 30, 2017, the School District did not hold any investment securities that were uninsured and unregistered.

**Interest Rate Risk** - Interest rate risk is the risk that the value of investments will decrease as a result of a rise in interest rates. The School District's investment policy does not restrict investment maturities. The School District's policy minimizes interest rate risk by structuring the investment portfolio so that securities mature to meet cash requirements for ongoing operations, thereby avoiding the need to sell securities in the open market; investing operating funds primarily in shorter-term securities, liquid asset funds, money market mutual funds, or similar investment pools; and limiting the average maturity in accordance with the School District's cash requirements.

**Credit Risk** - State law limits investments in commercial paper to the top two ratings issued by nationally recognized statistical rating organizations. The School District's investment policy does not further limit its investment choices.

At year end, the School District has no investments.

**Concentration of Credit Risk** - The School District places no limit on the amount the School District may invest in any one issuer. The School District's policy minimizes concentration of credit risk by requiring diversification of the investment portfolio so that the impact of potential losses from any one type of security or issuer will be minimized.

# Chippewa Valley Schools

## Notes to Financial Statements June 30, 2017

### Note 3 - Deposits and Investments (Continued)

**Foreign Currency Risk** - Foreign currency risk is the risk that an investment denominated in the currency of a foreign country could reduce its U.S. dollar value as a result of changes in foreign currency exchange rates. State law and the School District's policy prohibit investment in foreign currency.

### Note 4 - Unearned Revenue

Governmental funds report unavailable revenue in connection with receivables for revenue that is not considered to be available to liquidate liabilities of the current period. Governmental funds also report unearned revenue recognition in connection with resources that have been received but not yet earned. At the end of the current fiscal year, the School District has \$754,042 of unearned revenue related to grants received and tuition payments received but not yet earned, and \$83,251 of deposits received for the subsequent year's food service program.

### Note 5 - Capital Assets

Capital asset activity of the School District's governmental activities was as follows:

	Balance July 1, 2016	Reclassifications	Additions	Disposals	Balance June 30, 2017
<b>Governmental Activities</b>					
Capital assets not being depreciated:

# Chippewa Valley Schools

## Notes to Financial Statements June 30, 2017

### Note 5 - Capital Assets (Continued)

Depreciation expense was not charged to activities, as the School District considers its assets to impact multiple activities and allocation is not practical.

### Note 6 - Interfund Receivables, Payables, and Transfers

The composition of interfund balances is as follows:

Fund Due To	Fund Due From			Total
	General Fund	Other Nonmajor Governmental Funds	Fiduciary Fund	
General Fund	\$ -	\$ 662,142	\$ 465,626	\$ 1,127,768
Other nonmajor governmental funds	-	-	548	548
Fiduciary Fund	119,973	59,946	-	179,919
Total	\$ 119,973	\$ 722,088	\$ 466,174	\$ 1,308,235

These balances result from the time lag between the dates that goods and services are provided or reimbursable expenditures occur, transactions are recorded in the accounting system, and payments between funds are made.

#### Interfund Transfers

Transfers of \$925,074 from the General Fund to the International Academy covered the School District's tuition owed to the International Academy. The International Academy transferred \$804,304 to the General Fund to reimburse the School District for staff working at the Academy and other expenditures. Finally, a transfer of \$220,000 was made from the Cafeteria Fund to the General Fund to contribute to the costs of operation incurred by the General Fund for Cafeteria Fund operations.

### Note 7 - Long-term Debt

The School District issues bonds and other contractual commitments to provide for the acquisition and construction of major capital facilities and the acquisition of certain equipment. General obligation bonds are direct obligations and pledge the full faith and credit of the School District. Qualified bonds are fully guaranteed by the State of Michigan. Other long-term obligations include compensated absences, termination benefits, and certain risk liabilities.

# Chippewa Valley Schools

## Notes to Financial Statements June 30, 2017

### Note 7 - Long-term Debt (Continued)

Long-term debt activity can be summarized as follows:

	Beginning Balance	Additions	Reductions	Ending Balance	Due Within One Year
General obligation bonds	\$ 472,275,000	\$ 45,295,000	\$ 93,475,000	\$ 424,095,000	\$ 46,385,000
School Bond Loan Fund	1,037	33	-	1,070	-
School Loan Revolving Fund	-	29,881,464	-	29,881,464	-
Bond premium	33,581,334	7,264,959	3,262,524	37,583,769	3,038,684
Other obligations	1,819,015	898,710	871,767	1,845,958	706,628
Total governmental activities	<u>\$ 507,676,386</u>	<u>\$ 83,340,166</u>	<u>\$ 97,609,291</u>	<u>\$ 493,407,261</u>	<u>\$ 50,130,312</u>

At June 30, 2017, the School District had deferred outflows of \$14,969,161 related to deferred charges on bond refundings.

Annual debt service requirements to maturity for the above general bond obligations are as follows:

Years Ending June 30	Governmental Activities		
	Principal	Interest	Total
2018	\$ 46,385,000	\$ 16,516,004	\$ 62,901,004
2019	46,295,000	15,359,314	61,654,314
2020	47,680,000	13,918,189	61,598,189
2021	49,165,000	12,366,289	61,531,289
2022	50,675,000	10,698,312	61,373,312
2023-2027	108,680,000	32,885,962	141,565,962
2028-2032	50,560,000	12,823,660	63,383,660
2033-2035	24,655,000	1,834,414	26,489,414
Total	<u>\$ 424,095,000</u>	<u>\$ 116,402,144</u>	<u>\$ 540,497,144</u>

# Chippewa Valley Schools

## Notes to Financial Statements June 30, 2017

### Note 7 - Long-term Debt (Continued)

#### Governmental Activities

General obligation qualified bonds consist of the following:

2013 Refunding Issue - \$132,945,000 General Obligation - Unlimited Tax - due in annual installments of \$5,775,000 to \$8,530,000 through May 1, 2034; interest from 3.50 percent to 5.25 percent	\$ 116,255,000
2015 Refunding Issue Series A - \$38,170,000 General Obligation - Unlimited Tax - due in installments of \$3,975,000 to \$9,730,000 beginning in May 2023 through May 1, 2027; interest from 3.13 percent to 5.00 percent	38,170,000
2015 Refunding Issue Series B - \$195,675,000 General Obligation - Unlimited Tax - due in installments of \$30,125,000 to \$34,600,000 through May 2022; interest from 1.64 percent to 2.98 percent	160,675,000
2016 Refunding Issue Series A - \$63,915,000 General Obligation - Unlimited Tax - due in installments of \$3,380,000 to \$3,675,000 beginning in May 2017 through May 2035; interest from 2.75 percent to 5.00 percent	63,700,000
2016 Refunding Issue Series B - \$45,295,000 General Obligation - Unlimited Tax - due in installments of \$1,660,000 to \$8,310,000 beginning in May 2019 through May 2027; interest at 5.00 percent	<u>45,295,000</u>
Total bonded debt	<u>\$ 424,095,000</u>

Other governmental activities long-term obligations include the following:

Employee compensated absences	\$ 1,196,615
Voluntary retirement supplement	382,904
Self-insurance liability	<u>266,439</u>
Total	<u>\$ 1,845,958</u>

### **Note 7 - Long-term Debt (Continued)**

**School Bond Loan** - The school bond loan payable represents notes payable to the State of Michigan for loans made to the School District, as authorized by the 1963 State of Michigan Constitution, for the purpose of paying principal and interest on general obligation bonds of the School District issued for capital expenditures. Interest rates are to be annually determined by the State Administrative Board. Interest, at an annual rate ranging from 3.13323 percent to 3.222749 percent from July 1, 2016 to June 30, 2017, has been assessed for the year ended June 30, 2017. Repayment is required when the millage rate necessary to cover the annual bonded debt service falls below 7 mills. The School District is required to levy seven mills and repay to the State any excess of the amount levied over the bonded debt service requirements. Due to the variability of the factors that affect the timing of repayment, including the future amount of state-equalized value of property in the School District, no provision for repayment has been included in the above amortization schedule.

**School Loan Revolving Fund** - The School Loan Revolving Fund payable represents notes payable to the State of Michigan for loans made to the School District, as authorized by the 1963 State of Michigan Constitution, for the purpose of paying principal and interest on general obligation bonds of the School District issued for capital expenditures. Interest rates are to be annually determined by the State Administrative Board in accordance with Section 9 of Act No. 92 of the Public Acts of 2005, as amended. Interest rates went into effect beginning on October 1, 2005 pursuant to Public Act 92. Interest at an annual rate ranging from 3.13323 percent to 3.15620 percent from July 1, 2016 to June 30, 2017 has been assessed for the year ended June 30, 2017. Repayment begins as soon as annual tax collections exceed annual debt service payment requirements. The predetermined mandatory final loan repayment date is May 1, 2040. Due to the variability of the factors that affect the timing of repayment, including the future amount of state-equalized value of property in the School District, no provision for repayment has been included in the above amortization schedule.

**Voluntary Retirement Supplement** - The School District had a long-term voluntary retirement incentive program in place that called for a total payout of \$382,905 through June 2024 to be paid in monthly installments of \$335.

# Chippewa Valley Schools

## Notes to Financial Statements June 30, 2017

### Note 7 - Long-term Debt (Continued)

**Advance Refundings** - During the year, the School District issued \$45,295,000 in general obligation bonds with an average interest rate of 5.00 percent. The proceeds of these bonds were used to advance refund \$51,165,000 of outstanding 2006 Refunding bonds with an average interest rate of 4.30 percent. The net proceeds of \$52,255,219 (after payment of \$259,477 in underwriting fees, insurance, and other issuance costs) were used to purchase U.S. government securities and were deposited in an irrevocable trust with an escrow agent to provide for all future debt service payments on the original bonds. As a result, the bonds are considered to be defeased and the liability for the bonds has been removed from the School District's long-term obligations. The advance refunding resulted in an economic gain of approximately \$5,434,000.

### Note 8 - Risk Management

The School District is exposed to various risks of loss related to property loss, torts, errors and omissions, and employee injuries (workers' compensation), as well as medical benefits provided to employees. The School District has purchased commercial insurance for all claims except workers' compensation and dental. Settled claims relating to the commercial insurance have not exceeded the amount of insurance coverage in any of the past three fiscal years. For dental, claims are limited to various maximum amounts, which depend on employee contractual groups.

The School District estimates the liability for workers' compensation claims that have been incurred through the end of the fiscal year, including both those claims that have been reported as well as those that have not yet been reported. These estimates are recorded in the district-wide statements. The School District's maximum exposure is limited to the specific stop-loss for workers' compensation claims of \$300,000. Changes in the estimated liability for the past two fiscal years were as follows:

#### Self-insured Workers' Compensation

	2017	2016
Estimated liability - Beginning of year	\$ 210,758	\$ 70,876
Estimated claims incurred - Including changes in estimates	355,917	329,902
Claim payments	(300,236)	(190,020)
Estimated liability - End of year	<u>\$ 266,439</u>	<u>\$ 210,758</u>

### Note 9 - Michigan Public School Employees' Retirement System

**Plan Description** - The School District participates in the Michigan Public School Employees' Retirement System (MPSERS or the "System"), a statewide, cost-sharing, multiple-employer defined benefit public employee retirement system governed by the State of Michigan that covers substantially all employees of the School District. Certain School District employees also receive defined contribution retirement and healthcare benefits through the System. The System provides retirement, survivor, and disability benefits to plan members and their beneficiaries. The System also provides postemployment healthcare benefits to retirees and beneficiaries who elect to receive those benefits.

The Michigan Public School Employees' Retirement System issues a publicly available financial report that includes financial statements and required supplemental information for the pension and postemployment healthcare plans. That report is available on the web at <http://www.michigan.gov/orsschools>, or by writing to the Office of Retirement System (ORS) at 7150 Harris Drive, P.O. Box 30171, Lansing MI 48909.

**Contributions** - Public Act 300 of 1980, as amended, required the School District to contribute amounts necessary to finance the coverage of pension benefits of active and retired members. Contribution provisions are specified by State statute and may be amended only by action of the state legislature. Under these provisions, each School District's contribution is expected to finance the costs of benefits earned by employees during the year, with an additional amount to finance a portion of the unfunded accrued liability.

School District's contributions are determined based on employee elections. There are seven different benefit options included in the plan available to employees based on date of hire. Contribution rates are adjusted annually by the ORS.

The range of rates are as follows:

#### School District

October 1, 2015 - September 30, 2016	14.56% - 18.95%
October 1, 2016 - June 30, 2017	15.27% - 19.03%

Depending on the plan selected, plan member contributions range from 0 percent up to 7.0 percent of gross wages. Plan members electing into the defined contribution plan are not required to make additional contributions.

### **Note 9 - Michigan Public School Employees' Retirement System (Continued)**

The School District's required and actual contributions to the plan for the year ended June 30, 2017 totaled \$23,860,887, which includes the School District's contributions required for those members with a defined contribution benefit. The School District's required and actual contributions include an allocation of \$7,505,161 in revenue received from the State of Michigan, and remitted to the system, to fund the MPSERS Unfunded Actuarial Accrued Liability (UAAL) Stabilization Rate for the year ended June 30, 2017.

**Benefits Provided** - Benefit provisions of the defined benefit pension plan are established by state statute, which may be amended. Public Act 300 of 1980, as amended, establishes eligibility and benefit provisions for the defined benefit (DB) pension plan.

Depending on the plan option selected, member retirement benefits are calculated as final average compensation times years of service times a pension factor ranging from 1.25 percent to 1.50 percent. The requirements to retire range from attaining the age of 46 to 60 with years of service ranging from 5 to 30 years, depending on when the employee became a member. Early retirement is computed in the same manner as a regular pension, but is permanently reduced 0.50 percent for each full and partial month between the pension effective date and the date the member will attain age 60. There is no mandatory retirement age.

Members are eligible for nonduty disability benefits after 10 years of service and for duty-related disability benefits upon hire. Disability retirement benefits are determined in the same manner as retirement benefits but are payable immediately without an actuarial reduction. The disability benefits plus authorized outside earnings are limited to 100 percent of the participant's final average compensation with an increase of 2 percent each year thereafter.

Benefits may transfer to a beneficiary upon death and are determined in the same manner as retirement benefits, but with an actuarial reduction.

Benefit terms provide for annual cost-of-living adjustments to each employee's retirement allowance subsequent to the employee's retirement date. The annual adjustment, if applicable, is 3 percent. For some members who do not receive an annual increase, they are eligible to receive a supplemental payment in those years when investment earnings exceed actuarial assumptions.

# Chippewa Valley Schools

## Notes to Financial Statements June 30, 2017

### Note 9 - Michigan Public School Employees' Retirement System (Continued)

**Net Pension Liability, Deferrals, and Pension Expense** - At June 30, 2017, the School District reported a liability of \$244,568,269 for its proportionate share of the net pension liability. The net pension liability was measured as of September 30, 2016 and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of September 30, 2015, which used updated procedures to roll forward the estimated liability to September 30, 2016. The School District's proportion of the net pension liability was based on a projection of its long-term share of contributions to the pension plan relative to the projected contributions of all participating reporting units, actuarially determined. At September 30, 2016, the School District's proportion was 0.980266 percent.

For the year ended June 30, 2017, the School District recognized pension expense of \$24,019,733, inclusive of payments to fund the MPSERS UAAL Stabilization Rate. At June 30, 2017, the School District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows Resources
Difference between expected and actual experience	\$ 3,047,966	\$ (579,633)
Changes of assumptions	3,823,633	-
Net difference between projected and actual earnings on pension plan assets	4,064,723	-
Changes in proportion and differences between the School District's contributions and proportionate share of contributions	3,915,225	(2,481,150)
The School District's contributions subsequent to the measurement date	<u>19,658,728</u>	<u>-</u>
Total	<u>\$ 34,510,275</u>	<u>\$ (3,060,783)</u>

Amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Years Ending <u>June 30</u>	<u>Amount</u>
2018	\$ 2,635,281
2019	2,315,661
2020	6,237,079
2021	<u>602,743</u>
Total	<u>\$ 11,790,764</u>

### Note 9 - Michigan Public School Employees' Retirement System (Continued)

In addition, the contributions subsequent to the measurement date will be included as a reduction of the net pension liability in the next year.

**Actuarial Assumptions** - The total pension liability as of September 30, 2016 is based on the results of an actuarial valuation date of September 30, 2015 and rolled forward:

- Actuarial cost method - Entry age normal cost actuarial cost method
- Investment rate of return - 7.00 to 8.00 percent, net of investment expenses based on the groups
- Salary increases - 3.50 - 12.3 percent, including wage inflation of 3.5 percent
- Mortality basis - RP2000 Combined Healthy Mortality Table, adjusted for mortality improvements to 2025 using projection scale BB
- Cost of living pension adjustments - 3 percent annual noncompounded for MIP members

The actuarial assumptions used for the September 30, 2014 valuation were based on the results of an actuarial experience study for the period from October 1, 2007 to September 30, 2012. As a result of this study, the actuarial assumptions were adjusted to more closely reflect actual experience.

**Discount Rate** - The discount rate used to measure the total pension liability was 7.00-8.00 percent depending on the plan option. The projection of cash flows used to determine the discount rate assumed that employee contributions will be made at the current contribution rate and that employer contributions will be made at contractually required rates. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments for current active and inactive employees. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

# Chippewa Valley Schools

## Notes to Financial Statements June 30, 2017

### Note 9 - Michigan Public School Employees' Retirement System (Continued)

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

Investment Category	Target Allocation	Long-term Expected Real Rate of Return
Domestic equity pools	28.0 %	5.9 %
Private equity pools	18.0 %	9.2 %
International equity pools	16.0 %	7.2 %
Fixed-income pools	10.5 %	0.9 %
Real estate and infrastructure pools	10.0 %	4.3 %
Real return, opportunistic, and absolute pool	15.5 %	6.0 %
Short-term investment pools	2.0 %	- %
Total	<u>100.0 %</u>	

**Sensitivity of the Net Pension Liability to Changes in the Discount Rate** - The following presents the net pension liability of the School District calculated using the discount rate of 7.00-8.00 percent, depending on the plan option. The following also reflects what the School District's net pension liability would be if it were calculated using a discount rate that is 1.00 percentage point lower (6.00-7.00 percent) or 1.00 percentage point higher (8.00-9.00 percent) than the current rate:

1.00 Percent Decrease (6.00-7.00 Percent)	Current Single Discount Rate (7.00-8.00 Percent)	1.00 Percent Increase (8.00-9.00 Percent)
<u>\$ 314,942,371</u>	<u>\$ 244,568,269</u>	<u>\$ 185,236,135</u>

**Pension Plan Fiduciary Net Position** - Detailed information about the pension plan's fiduciary net position is available in the separately issued MPSERS financial report.

### **Note 9 - Michigan Public School Employees' Retirement System (Continued)**

**Payable to the Pension Plan** - At June 30, 2017, the School District reported a payable of \$3,942,097 for the outstanding amount of contributions to the pension plan required for the year ended June 30, 2017.

**Postemployment Benefits Other Than Pensions (OPEB)** - Under the MPSERS act, all retirees participating in the MPSERS pension plan have the option of continuing health, dental, and vision coverage through MPSERS. Retirees electing this coverage contribute an amount equivalent to the monthly cost for Part B Medicare and 10 percent, or 20 percent for those not Medicare eligible, of the monthly premium amount for the health, dental, and vision coverage at the time of receiving the benefits. The MPSERS board of trustees annually sets the employer contribution rate to fund the benefits on a pay-as-you-go basis. Participating employers are required to contribute at that rate. The employer contribution rate ranged from 2.2 percent to 2.71 percent of covered payroll for the period from July 1, 2016 to September 30, 2016, and from 6.4 percent to 6.83 percent of covered payroll for the period from October 1, 2016 through June 30, 2017, dependent upon the employee's date of hire and plan election as noted above. Members can choose to contribute 3 percent of their covered payroll to the Retiree Healthcare Fund and keep this premium subsidy benefit or they can elect not to pay the 3 percent contribution and instead choose the Personal Healthcare Fund, which can be used to pay healthcare expenses in retirement. Members electing the Personal Healthcare Fund will be automatically enrolled in a 2 percent employee contribution into their 457 account as of their transition date and create a 2 percent employer match into the employee's 403B account.

The School District's required and actual contributions to the plan for retiree healthcare benefits for the years ended June 30, 2017, 2016, and 2015 were approximately \$5,120,000, \$4,810,000, and \$2,881,000, respectively. In addition, a portion ranging from 35-100 percent of the MPSERS Unfunded Actuarial Accrued Liability (UAAL) Stabilization Rate is considered a contribution to the retiree healthcare plan.

### **Note 10 - Upcoming Accounting Pronouncements**

In June 2015, the GASB issued Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions*, which addresses reporting by governments that provide postemployment benefits other than pensions (OPEB) to their employees and for governments that finance OPEB for employees of other governments. This OPEB standard will require the School District to recognize on the face of the financial statements its proportionate share of the net OPEB liability related to its participation in the MPSERS plan. The statement also enhances accountability and transparency through revised note disclosures and required supplemental information (RSI). The School District is currently evaluating the impact this standard will have on the financial statements when adopted. The provisions of this statement are effective for

### **Note 10 - Upcoming Accounting Pronouncements (Continued)**

the School District's financial statements for the year ending June 30, 2018.

In January 2017, the Governmental Accounting Standards Board issued GASB Statement No. 84, *Fiduciary Activities*, which establishes criteria for identifying fiduciary activities of all state and local governments. An activity meeting the criteria should be reported in a fiduciary fund in the basic financial statements. The School District is currently evaluating the impact this standard will have on the financial statements when adopted. The provisions of this statement are effective for the School District's financial statements for the year ending June 30, 2020.

In June 2017, the Governmental Accounting Standards Board issued GASB Statement No. 87, *Leases*, which improves accounting and financial reporting for leases by governments. This statement requires recognition of certain lease assets and liabilities for leases that previously were classified as operating leases and recognized as inflows of resources or outflows of resources based on the payment provisions of the contract. It establishes a single model for lease accounting based on the foundational principle that leases are financings of the right to use an underlying asset. Under this statement, a lessee is required to recognize a lease liability and an intangible right-to-use lease asset, and a lessor is required to recognize a lease receivable and a deferred inflow of resources. The School District is currently evaluating the impact this standard will have on the financial statements when adopted. The provisions of this statement are effective for the School Districts' financial statements for the year ended June 30, 2021.

### **Note 11 - Tax Abatements**

The School District receives reduced property tax revenue as a result of Industrial Facilities Tax exemptions (PA 198 of 1974) granted by cities, villages, and townships within the boundaries of the School District. Industrial facility exemptions are intended to promote construction of new industrial facilities, or to rehabilitate historical facilities.

For the fiscal year ended June 30, 2017, the School District's property tax revenue was reduced by \$91,916 under these programs.

The School District is reimbursed for lost revenue caused by tax abatements on the operating millage of nonhomestead properties from the State of Michigan under the School Aid formula. The School District received approximately \$44,269 in reimbursements from the State of Michigan. The School District is not reimbursed for lost revenue from the debt service millages. There are no abatements made by the School District.

## **Required Supplemental Information**
