

AI CHIPPEWA VALLEY SCHOOLS AI in Our Classrooms

Approved Tools & Student Safety

Why We Use It

Student Safety & Privacy

SchoolAI

Teacher-guided AI practice for instant feedback or a thought partner. Available to all grade levels.

- Provides personalized learning experiences tailored to student needs.
- Teachers build and assign each learning activity and control parameters.

- No student account needed.
- Teachers can monitor student conversations.
- Safety monitoring flags concerning messages and alerts educators.
- Student data is not sold or used to train AI models.

Microsoft Copilot

An AI assistant and thought partner that helps students learn, create, and receive instant feedback. Available to high school students only.

- Helps students brainstorm, research, and organize ideas.
- Builds AI skills for college and careers.
- Works through the district account students already use, so no new sign-ups.

- Access through district-managed Microsoft accounts.
- Student prompts and responses are not used to train AI models.
- Data is encrypted and protected by Microsoft's education privacy terms.
- Built-in safeguards help filter harmful content.

Microsoft 365 AI Features

AI help built into Word, PowerPoint, and more. Available to all grade levels.

- Writing, reading, and presentation support.
- Accessibility tools such as read-aloud, translation, and dictation.

- District-managed accounts.
- School-controlled AI settings.
- Microsoft education privacy protections.
- Data is secure, encrypted, and is not used to train AI models.

Canva for Education

A creative design platform with AI features for visual and interactive projects. Available to all grade levels.

- Encourages creativity and different ways to demonstrate learning.
- Develops digital communication and design skills through interactive projects.

- Education-specific privacy protections.
- Administrators control access to AI features.
- AI-generated content is subject to safety filtering.
- Student content is not used to train AI models.

Our Commitment to Student Safety

Chippewa Valley Schools reviews AI tools for educational value, age appropriateness, and student privacy protections. Student information is not sold or used to train AI models in district-approved tools. Teachers and administrators decide which tools and features students can use.
