AI

CHIPPEWA VALLEY SCHOOLS
GUIDELINES FOR USE

CHECK AND DOUBLE-CHECK
Always question and verify the information you get from AI tools. Use additional resources to make sure it's accurate and reliable before using it.

BE ORIGINAL AND GIVE CREDIT
Your original ideas are important! Don't just copy and paste from AI-generated content. Also, be sure to provide credit to what tools you use and how they assisted you.
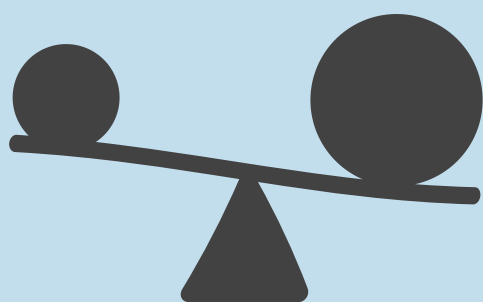

KEEP PERSONAL STUFF PRIVATE
Never share personal info online, even with AI. Privacy is crucial, so think twice before sharing anything sensitive like names and addresses. Keeping this information private is key to maintaining a safe online environment.

AI IS A HELPER, NOT A REPLACEMENT
AI serves as a valuable ally, enhancing your learning/teaching experience without taking the place of your unique thinking and creativity.

RECOGNIZE BIAS IN AI
Be aware of bias in AI and how it can sneak into the things we create. Recognize that AI-generated content might exhibit a tendency towards a particular viewpoint, potentially leading to a one-sided representation.
